

## SEARCHING FOR AUTHOR ID

1. Author ID is created automatically after indexing the author's record in the Scopus database; just search for it. At <https://www.scopus.com/>, switch from **Documents search** to **Authors search**. Enter the last name and the first name.

The screenshot shows the Scopus Author search page. The 'Authors' tab is selected, highlighted with a red arrow. The search form includes fields for 'Author last name' (filled with 'Hawking'), 'Author first name' (filled with 'Stephen'), 'Affiliation', and 'ORCID'. A 'Search Q' button is visible on the right. The page header includes the Scopus logo and navigation links like 'Search', 'Sources', 'Lists', and 'SciVal'.

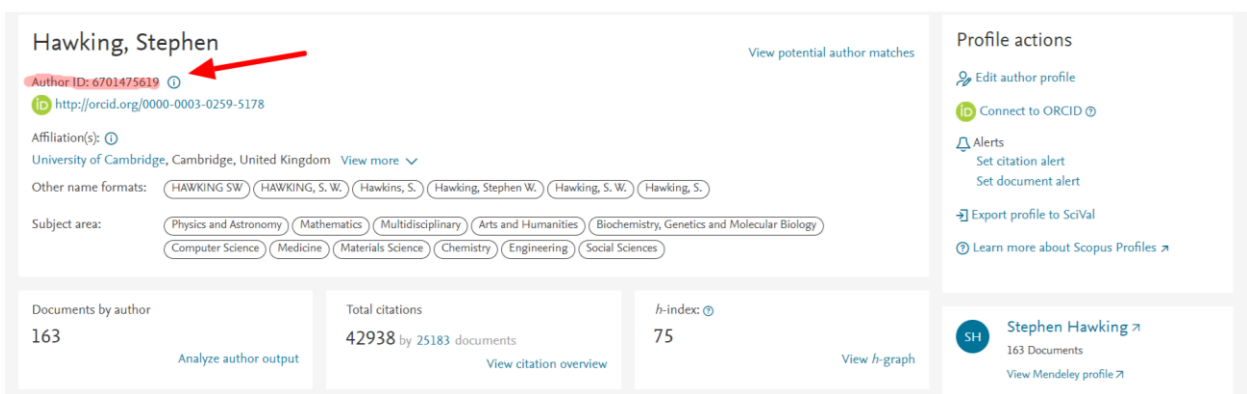

2. Click on the **name** to open a list of authors matching the search. If there are more authors with the same name in the results, you can use the filter in the left column to reduce the number of results.

The screenshot shows the search results page. A table lists search results for 'Hawking, Stephen'. A red arrow points to the author's name in the first row. The table has columns for Author, Documents, h-index, Affiliation, City, and Country/Territory. The first row shows 1 result for 'Hawking, Stephen' with 163 documents and an h-index of 75. The left sidebar shows 'Refine results' with filters for Affiliation, including 'Faculty of Mathematics'.

Author	Documents	h-index	Affiliation	City	Country/Territory
1 Hawking, Stephen HAWKING SW, S. W. HAWKING, S. Hawkins, Stephen W.	163	75	University of Cambridge	Cambridge	United Kingdom

3. The Scopus Author ID is provided on the **first line below the name**. The page also contains an overview of the author's assigned works. In the right column, it is possible, after logging in, to edit the profile by clicking on **Edit author profile** or connect it to ORCID using the **Connect to ORCID** option.
